

§ 102-80.10

§ 102-80.10 What are the basic safety and environmental management policies for real property?

The basic safety and environmental management policies for real property are that Federal agencies must—

- (a) Provide for a safe and healthful work environment for Federal employees and the visiting public;
- (b) Protect Federal real and personal property;
- (c) Promote mission continuity;
- (d) Provide reasonable safeguards for emergency forces if an incident occurs;
- (e) Assess risk;
- (f) Make decision makers aware of risks; and
- (g) Act promptly and appropriately in response to risk.

Subpart B—Safety and Environmental Management

ASBESTOS

§ 102-80.15 What are Federal agencies' responsibilities concerning the assessment and management of asbestos?

Federal agencies have the following responsibilities concerning the assessment and management of asbestos:

- (a) Inspect and assess buildings for the presence and condition of asbestos-containing materials. Space to be leased must be free of all asbestos containing materials, except undamaged asbestos flooring in the space or undamaged boiler or pipe insulation outside the space, in which case an asbestos management program conforming to U.S. Environmental Protection Agency (EPA) guidance must be implemented.
- (b) Manage in-place asbestos that is in good condition and not likely to be disturbed.
- (c) Abate damaged asbestos and asbestos likely to be disturbed. Federal agencies must perform a pre-alteration asbestos assessment for activities that may disturb asbestos.
- (d) Not use asbestos in new construction, renovation/modernization or repair of their owned or leased space. Unless approved by GSA, Federal agencies must not obtain space with asbestos through purchase, exchange, transfer,

41 CFR Ch. 102 (7-1-11 Edition)

or lease, except as identified in paragraph (a) of this section.

- (e) Communicate all written and oral asbestos information about the leased space to tenants.

RADON

§ 102-80.20 What are Federal agencies' responsibilities concerning the abatement of radon?

Federal agencies have the following responsibilities concerning the abatement of radon in space when radon levels exceed current EPA standards:

- (a) Retest abated areas and make lessors retest, as required, abated areas to adhere to EPA standards.
- (b) Test non-public water sources (in remote areas for projects such as border stations) for radon according to EPA guidance. Radon levels that exceed current applicable EPA standards must be mitigated. Federal agencies must retest, as required, to adhere to EPA standards.

INDOOR AIR QUALITY

§ 102-80.25 What are Federal agencies' responsibilities concerning the management of indoor air quality?

Federal agencies must assess indoor air quality of buildings as part of their safety and environmental facility assessments. Federal agencies must respond to tenant complaints on air quality and take appropriate corrective action where air quality does not meet applicable standards.

LEAD

§ 102-80.30 What are Federal agencies' responsibilities concerning lead?

Federal agencies have the following responsibilities concerning lead in buildings:

- (a) Test space for lead-based paint in renovation projects that require sanding, welding or scraping painted surfaces.
- (b) Not remove lead based paint from surfaces in good condition.
- (c) Test all painted surfaces for lead in proposed or existing child care centers.
- (d) Abate lead-based paint found in accordance with U.S. Department of Housing and Urban Development (HUD)
